Editorial

The November 2025 edition of Urjasvini reflects yet another impactful quarter in Bihar's power sector—one marked by people-centric reforms, technological progress, and strengthened institutional resolve. The Hon'ble Chief Minister's Jan Samvaad on the 125 units of free electricity, reaffirming the state's commitment to inclusive growth and ensuring that the benefits of development reached every household. This shared foundation made possible one of the most significant welfare decisions in the state's history, the provision of 125 units of free electricity per month for all domestic consumers effective from July 1, 2025. The initiative reaffirms the belief that energy access is a right that must be affordable and secure for every family.

This edition also highlights BSPHCL's Foundation Day celebration held on 1st November 2025—a vibrant reflection of the organization's unity, talent and dedication. The event brought together employees and their families for an evening filled with musical performances, group songs, recognition of outstanding achievers of the organisation, and memorable musical concerts by Indian Idol fame Ritika Raj and Bollywood artists Toshi and Sharib, creating an atmosphere of unity and togetherness.

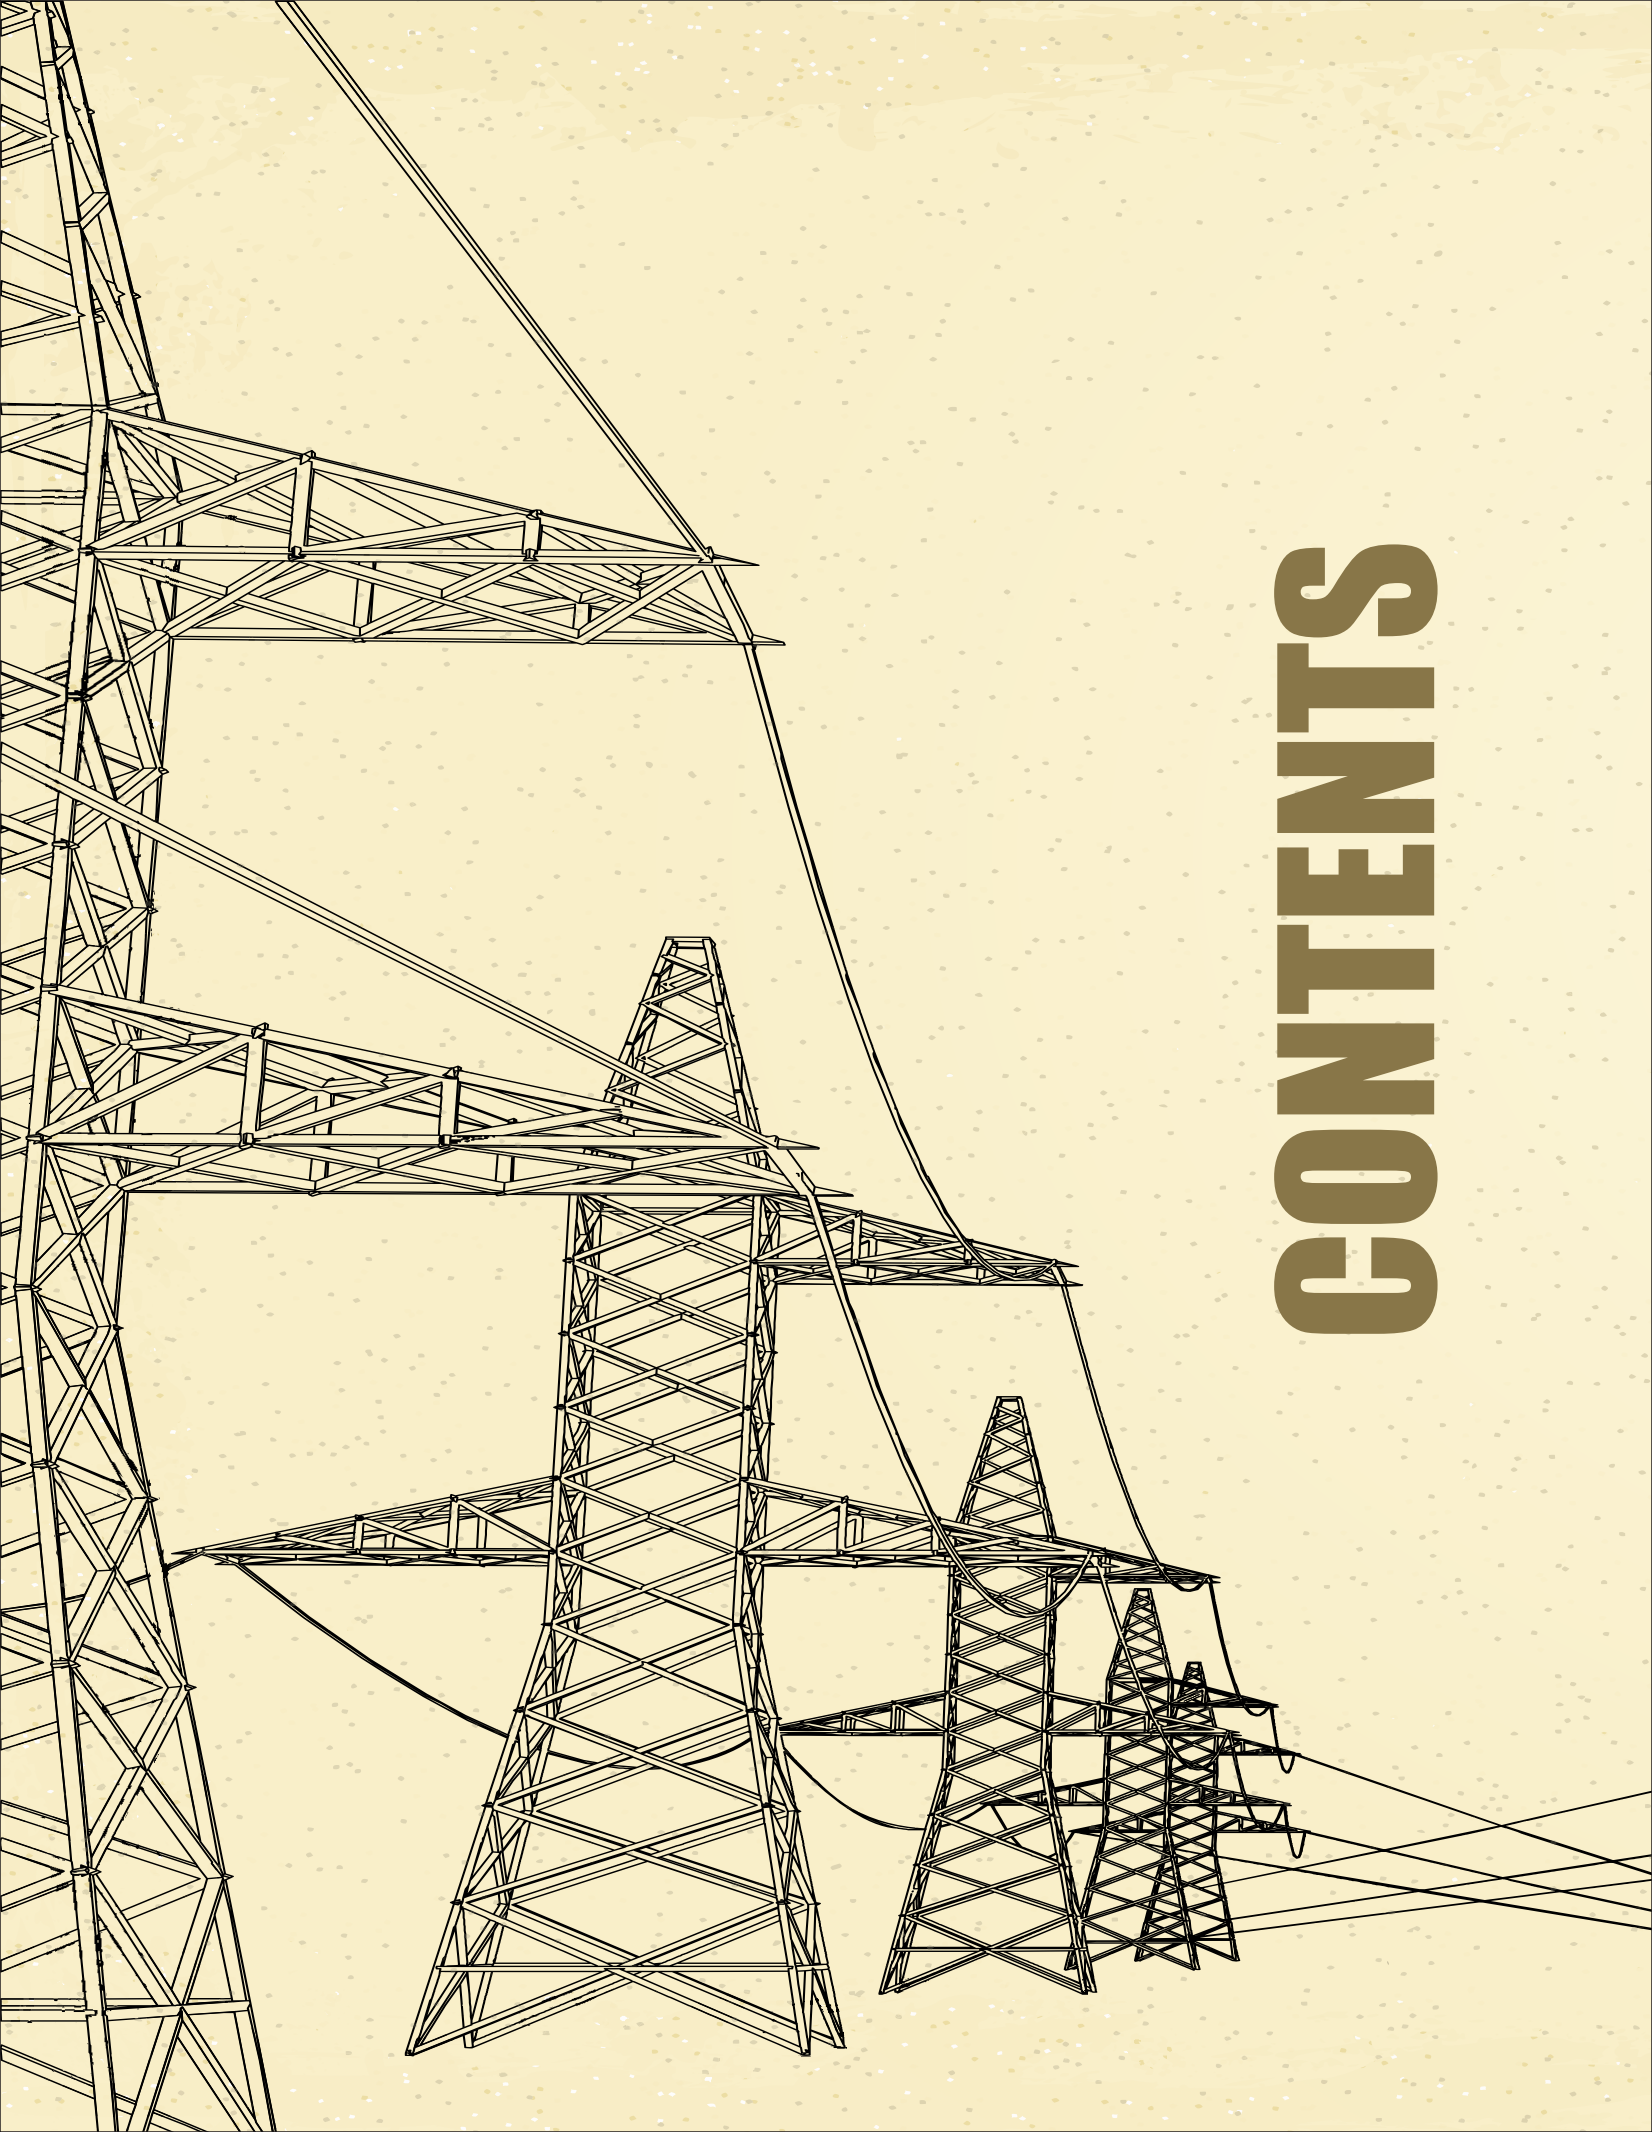

A moment of special significance & pride for the Urja Parivar was the visit of the Chief Secretary of Bihar, who formerly served as CMD of BSPHCL. Addressing employees at a facilitation programme, he praised the resilience and commitment of the power sector workforce and encouraged the continued adoption of advanced technologies for better service delivery. His reflections on earlier milestones especially strengthening IT systems and modernizing operations served as a powerful reminder of the organization's growth and potential.

Further, Bihar's leadership in power sector was showcased at the 6th International Energy Conference and Exhibition 2025, organized by CII, where the state shared its advancements in smart metering, automation, and sustainable energy solutions.

The Bihar Power Conclave 2025, organized by IEEMA, additionally underscored the state's rising prominence in India's energy landscape. With participation from ministers, industry leaders, manufacturers and technical experts, the conclave showcased Bihar's rapid progress in renewable energy, grid modernization, smart metering and large-scale investments, and highlighted the state's readiness for new opportunities.

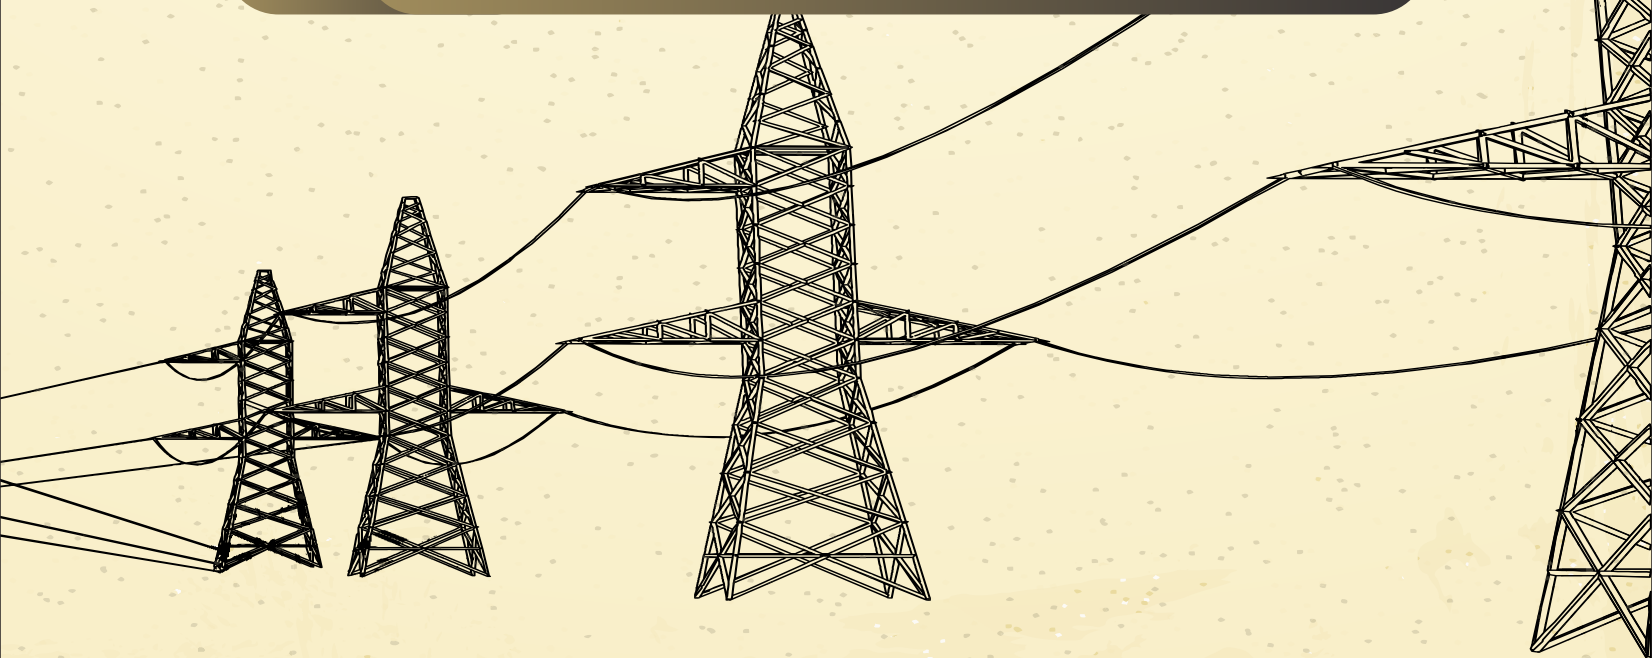

Adding to the quarter's achievements, both SBPDCL and NBPDCI earned national recognition at the India Energy Summit and ICC Innovation with Impact Awards 2025, winning top ranks in technology adoption, innovation and operational performance. These honours reflect the dedication of the workforce and the strategic reforms that have positioned Bihar's DISCOMs among the most progressive in the country.

This edition also celebrates cultural expression through Independence day, Hindi Diwas, Diwali and other celebration and heartfelt poetry contributed by employees, capturing pride, identity and the shared spirit that defines the Urja Parivar.

From Access to Assurance : Bihar's Journey Towards Universal Energy Security

Bihar's Power Sector - A Journey of Transformation and Collective Resolve

Over the past two decades, Bihar's power sector has undergone a transformation unmatched by most Indian states. What was once a system marked by scarcity, unreliable supply and public dissatisfaction has evolved into one defined by stability, financial discipline and consumer-first governance. In 2005, even urban Bihar struggled with just five to six hours of supply, while large parts of rural regions remained in darkness. Today, the state delivers 23–24 hours of reliable power across both urban and rural areas—reshaping daily life, productivity and public confidence.

This progress is reflected in the numbers. Peak demand has risen from 700 MW in 2005 to over 8,752 MW in 2025; electrified villages expanded from 14,020 to more than 39,000; and AT&C losses fell from nearly 60% to 15.5%, even surpassing the national average.

Yet Bihar's true achievement lies in the participation of its people. Consumers adopted smart meters, shifted to prepaid and digital payments, attended panchayat-level camps, engaged transparently with grievance systems and built trust in DISCOM processes. Their behaviour change strengthened financial stability and enabled the government to reinvest in subsidies, networks and consumer-centric reforms.

It is this shared foundation of governance and public cooperation that made possible one of the most far-reaching welfare decisions in Bihar's history: 125 units of free electricity per month for all domestic consumers.

A New Era of Energy Justice in Bihar

Electricity in Bihar has evolved far beyond its role as an essential utility. Over the past decade, it has become a symbol of empowerment, modernity and equitable growth. The state's decision to offer 125

units of free electricity every month to all domestic consumers from July 1, 2025, represents a profound shift in Bihar's development philosophy. It reinforces the idea that access to reliable electricity is not a luxury but a right—one that the state is committed to upholding for every household.

This decision is not a standalone announcement. It is the culmination of a sustained, long-term reform journey that began when the Honourable Chief Minister vowed in 2012 to electrify every home in the state. Today, the fruits of that commitment are visible in every corner of Bihar—cities growing with confidence, rural economies expanding, households experiencing comfort and safety, and consumers engaging with a modern, digital electricity ecosystem.

The Evolution of Subsidy : From Support to Transformation

Since the unbundling of the Bihar State Electricity Board in November 2012—when five specialised successor companies were formed—the state has followed a clear vision: electricity must remain affordable for every household. Tariff subsidy has been central to this mission, helping bridge the gap between rising consumption and household affordability as electrification expanded rapidly across rural and urban Bihar.

In the years up to 2016–17, this affordability was maintained largely through reduced consumer tariffs, without clearly showing how much the government was contributing. While effective, it masked the true cost of supply and the significant fiscal support extended to consumers.

Post-2017–18, Bihar introduced a transparent billing system in which consumers see the full approved tariff followed by a dedicated line—“Rajya Sarkar ka Anudaan”—showing the exact subsidy deducted from their bill. This reform created one of India's largest and clearest direct benefit reflection mechanisms, strengthening public awareness and trust.

The subsidy's expansion mirrors this commitment. What began as ₹927 crore in 2012–13 rose to ₹2,656

crore in 2013–14 and ₹4,390 crore in 2015–16. With near-universal electrification, it increased to ₹5,494 crore in 2020–21 and ₹7,801 crore in 2022–23. A major leap came in 2023–24 when subsidy nearly doubled to ₹13,114 crore, responding to higher usage and rising household expectations.

Support climbed further to ₹15,343 crore in 2024–25, and ₹15,995 crore was budgeted for 2025–26. Following the landmark decision to provide 125 units of free electricity to all domestic consumers, an additional ₹3,797 crore was sanctioned under the Mukhyamantri Vidyut Upbhokta Sahayata Yojana, taking the total subsidy for FY 2025–26 to ₹19,792 crore.

This progression is more than an increase in consumption—it reflects a deliberate, people-centric policy approach. In Bihar, no family should be denied electricity due to financial constraints. What began as simple support has evolved into a transparent and transformative instrument of social justice, making affordable energy a lived reality for millions.

Category-Wise Tariff Support : Ensuring Inclusive Access for All

A. Domestic Consumers : From Essential Access to Full Relief

Bihar's subsidy architecture is broad, inclusive and responsive, ensuring meaningful tariff protection for every household—rural or urban. Kutir Jyoti (BPL) families remain central to this mission, benefiting for over a decade from some of India's lowest effective tariffs, enabling them to meet essential energy needs with dignity.

Support for rural domestic consumers—NBPDC's largest segment—has expanded rapidly alongside growing electrification and appliance use. This evolution culminated in the landmark 125-unit free electricity initiative, which has effectively eliminated monthly bills for nearly all rural households. Urban domestic consumers, too, continue to receive substantial and predictable tariff relief, ensuring that rising energy demand does not strain middle- and lower-income families.

B. Agriculture: India's Most Affordable Irrigation Power

For Bihar's farmers, the subsidy framework has been transformative. With irrigation power priced at just 55 paise per unit—over 92% subsidised—the state offers one of India's most affordable agricultural tariffs. Subsidy support, which was ₹385 crore in 2019–20, has grown to ₹4,584 crore in 2025–26, enabling farmers to shift decisively from diesel pumps to reliable, low-cost electric irrigation.

The benefits are widespread: expanded irrigated acreage, diversified crops, higher productivity and sharply reduced operating costs. Recognising the critical link between irrigation and post-harvest value, BERC has extended this same 55-paise IAS tariff to all HT and LT cold storage units storing agricultural produce. This path-breaking step not only lowers storage and preservation costs but also stabilises market prices—ensuring farmers earn more while consumers face fewer price shocks for essential food items.

C. Industrial, Commercial & Emerging Services: Powering Broad-Based Growth

Beyond households and agriculture, Bihar provides targeted tariff support to small businesses, micro-enterprises, LT and HT industrial consumers, cold storage operators and emerging sectors like EV charging. By keeping tariffs moderate and predictable, the state enables enterprises to expand,

generate local employment and strengthen both rural and urban economic ecosystems.

Bihar's subsidy model thus ensures that every class of consumer—not just the poorest—receives meaningful support, reflecting a commitment to balanced and inclusive growth.

How Consumers Benefit : Real Relief, Real Dignity, Real Progress

For millions of families, affordable electricity has reshaped daily life. Near-uninterrupted supply has made homes safer, more productive and more comfortable. Children can study longer, women run home-based enterprises confidently, and households have moved away from kerosene to reliable lighting.

Local businesses—from tea stalls to tailoring units and salons—have expanded operating hours and increased earnings simply because electricity is predictable and affordable. In rural areas, continuous power has meant brighter streets, busier markets and a visible rise in evening economic activity.

Electricity in Bihar has become a true enabler—reducing financial stress, expanding opportunity and enhancing dignity across communities.

The 125-Unit Free Electricity Scheme : A Milestone in Welfare Governance

The decision to provide 125 units of free electricity per month marks a landmark in Bihar's welfare governance. It offers direct, assured and immediate relief to 1.89 crore households—nearly 90% of domestic consumers.

For low- and middle-income families, the benefit is substantial—often equivalent to a week's groceries, school fees or essential medical expenses. It ensures that no household must choose between necessities and electricity. Crucially, long-term aspirations remain protected: even beyond 125 units, tariffs stay subsidised, supporting rising appliance use, better living standards and growing energy needs. The scheme reinforces a simple principle : energy security is a right, not a burden—and Bihar will safeguard that right for every family.

Jan Samwaad 2025 : A Statewide Exercise in Awareness, Clarity and Consumer Engagement

The rollout of the 125-unit free electricity benefit from August 1, 2025-applicable on July bills-naturally generated many consumer queries about bill calculation, subsidy adjustments and eligibility. To ensure clarity, Bihar launched one of its most extensive awareness drives.

In the weeks before implementation, DISCOMs issued FAQs and explanatory notes, released short videos, podcasts and digital explainers, used local miking, pamphlets and village announcements to reach even remote households. Influencer-led messages on social platforms further helped counter misconceptions.

To reinforce this outreach, a statewide Jan Samwaad was organised on August 12, 2025-designed not as a promotional event, but as a platform for direct dialogue. Over 4,000 camps were convened across districts, blocks and panchayats, enabling nearly 20–25 lakh consumers to seek clarifications, share feedback and understand how the new subsidy framework applied to their individual bills.

In a significant gesture of accountability, the Honourable Chief Minister joined the dialogue through video conference, listening to citizens, responding to concerns and underlining the government's commitment to transparency. For many families, this became an opportunity to express how electricity had shaped their lives-whether through improved study hours for children,

reduced irrigation costs for farmers, extended business hours for shopkeepers or monthly savings under the 125-unit provision.

The Jan Samwaad ultimately served as a bridge between policy and people-a large-scale exercise in awareness, clarity and trust-building. It reaffirmed that consumer involvement is central to Bihar's power-sector governance, and that informed citizens are the strongest partners in sustaining the state's progress.

Electricity as a Foundation for Equality and Opportunity

The story of Bihar's power sector is, at its core, the story of its people. It reflects what becomes possible when political resolve, administrative discipline and active consumer participation move in the same direction. From the early promise of "Har Ghar Bijli" to today's assurance of affordable electricity, the state has travelled a remarkable distance-expanding supply, reducing losses and building a system anchored in dignity and inclusion.

With these gains, Bihar is now set to deepen its consumer-centric reforms-strengthening reliability, expanding digital services and ensuring that every household experiences not just access to power, but true comfort, convenience and confidence in the electricity system.

Arvind Kumar

General Manager, (Revenue) SBPDCL

Foundation Day 2025 :

A Memorable Blend of Tradition, Talent & Entertainment

BSPHCL & its subsidiaries celebrated its Foundation Day with great enthusiasm and pride on 1st November 2025. The day was a vibrant reflection of the organization's glorious journey, its unwavering commitment to excellence, and the collective strength of its dedicated workforce.

The event commenced with the traditional lighting of the lamp by senior leadership, CMD, BSPHCL, MD, SBPDCL & MD, NBPDCCL symbolizing knowledge, hope, and new beginnings. Following the ceremonial start, the stage came alive with vibrant cultural performances by our creative & talented employees. The celebration began with a graceful Guru Vandana presented through a captivating Kathak performance by our talented female employees. Dressed in traditional attire, the performers brought elegance, rhythm and devotion to the stage. The group song presented by the employees added a dignified and melodious touch to the Foundation Day program. Their well-coordinated performance reflected harmony, teamwork, and the collective spirit of the organization, earning warm appreciation from the audience.

A special segment of the Foundation Day program was dedicated to recognizing the exemplary contributions of employees from the Revenue department and sports sector. Their consistent dedication, professionalism, and commitment to organizational growth were acknowledged with great appreciation. Respected CMD, Shri Manoj Kumar Singh, expressed heartfelt appreciation for the employees particularly recognizing the remarkable performance of teams in the revenue sector. He highlighted that their dedication, strategic efforts, and consistent pursuit of excellence have significantly strengthened the company's financial growth over the past year. By honoring their achievements, the organization reaffirmed its belief in valuing excellence and celebrating those who play a pivotal role in driving progress. The recognition ceremony served as a meaningful reminder of the impact of hard work and the importance of every individual's contribution to the collective success.

One of the most memorable highlights of the Foundation Day celebration was the captivating performance by Indian Idol fame Ritika Raj. Her arrival on stage was met with enthusiastic applause, and she immediately connected with the audience through her warm presence and engaging style. Ritika delivered a versatile set, moving effortlessly between soulful melodies & contemporary hits. Employees and their families were particularly impressed by her vocal range and the emotion she brought to each song.

The evening concluded with an electrifying performance by our Bollywood fame singer Toshi & Sharib especially invited for the occasion. Their captivating voice and dynamic stage presence left the audience spellbound. Popular melodies and interactive performances had everyone swaying along, creating a lively and joyous atmosphere

Employees and their family members thoroughly enjoyed the melodious performances presented by the singers during the Foundation Day celebration. The soothing vocals, coupled with a thoughtfully curated selection of songs, created a warm and engaging atmosphere that resonated with audiences of all ages. The musical segment brought smiles, applause, and moments of togetherness, adding a memorable and harmonious touch to the evening's festivities.

A day of music, dance, and heartfelt appreciation, the Foundation Day festivities brought employees and their families together in celebration of unity, dedication, and shared success. It was an evening to remember and cherish. With renewed energy and pride, we look ahead to another year of growth, innovation, and success together.

Bihar Power Conclave 2025 : Opportunities for Investment

The Bihar Power Conclave 2025, organized by the Indian Electrical and Electronics Manufacturers' Association (IEEMA), was held at Taj City Centre, Patna, drawing industry leaders, policymakers, and experts from across the country. The event showcased Bihar's rapid transformation in the power sector and emphasized emerging opportunities for investment and technological advancement.

The Conclave was inaugurated by the Hon'ble Minister of Energy, **Shri Bijendra Prasad Yadav**, by lightening the ceremonial lamp. The event was graced by Hon'ble Minister of Industries **Shri Nitish Mishra**, Energy Secretary and Chairman-cum-Managing Director of BSPHCL **Shri Manoj Kumar Singh**, Managing Director of NBPDC & BSPTCL **Shri Rahul Kumar**, along with senior officials and representatives from leading electrical equipment manufacturing companies.

The Conclave included extensive deliberations on key themes shaping Bihar's energy future:

- Investment opportunities and challenges in the power sector
- Bihar Renewable Energy and Pumped storage Policy - 2025
- Ongoing projects under BREDA
- Grid modernization and smart metering initiatives

Bihar Poised for Accelerated Growth: Energy Minister

In his inaugural address, Hon'ble Energy Minister, **Shri Bijendra Prasad Yadav** emphasized Bihar's central role in India's progress, stating that "the country's development is incomplete without Bihar." Highlighting the state's immense potential, he assured that investors would face no difficulties, as the government is committed to providing full support. He reiterated that Bihar is dedicated to ensuring high-quality and uninterrupted power supply, reinforcing its readiness to welcome and facilitate new investments.

Industry Minister Emphasized Investor-Friendly Reforms

Hon'ble Industries Minister, Shri Nitish Mishra underlined that the new Energy and Industrial Policies have made Bihar one of the most attractive destinations for investors. He noted that approvals are now granted within 7–15 days through the Single Window System. Under the revised Industrial Policy, the state government has also made provisions for free land allocation to eligible investors.

Transformational Growth in Two Decades

Energy Secretary & CMD, BSPHCL, Shri Manoj Kumar Singh, presented a comprehensive overview of the state's achievements. Under the leadership of Hon'ble Chief Minister Shri Nitish Kumar, Bihar has witnessed a revolutionary transformation in its power sector over the past 20 years.

Key highlights included:

- Investment of nearly ₹60,000 crore completed, with ₹30,000 crore worth of projects currently underway.
- Reliable power supply averaging 23 hours in rural areas and 24 hours in urban regions.
- Free electricity connections for farmers under the Mukhyamantri Krishi Vidyut Sambandh Yojana, with a target to connect maximum farmers to the grid by September 2026.
- Number of grid sub-stations increased fourfold.
- Power evacuation capacity expanded 19 times.
- Industrial consumers increased tenfold.
- AT&C losses reduced from 60% to 15.5%, enabling distribution companies to register profits.

Strengthening Infrastructure and New Avenues for Investment

MD NBPDCCL & BSPTCL, Shri Rahul Kumar stated Bihar currently operates 173 grid sub-stations, with 47 more planned over the next decade. The state's 33 kV evacuation capacity has reached 20,000 MW, significantly improving power infrastructure reliability. He invited investors to explore opportunities in sectors such as smart grids, fault-location systems, and lightning protection solutions.

Recognition from the Industry

IEEMA leadership, including President Shri Utkarsh Bansal, Director General Ms. Charu Mathur, and Chairman Shri Sunil Singhvi, applauded Bihar's Renewable Energy 2025 and Pumped Storage Policies, terming them among the most investor-friendly frameworks in the country. They also praised Bihar's efficient payment policy, calling it one of the best in India.

A Platform for Collaboration and Vision Setting

Senior officials including BSPTCL Director Shri Awadhesh Kumar Singh, SBPDCL Director (Projects) Shri Deepak Kumar Singh, and NBPDCCL Director (Projects) Shri I.C. Yadav also addressed the gathering, sharing insights into ongoing developments and future goals.

The Bihar Power Conclave 2025 reaffirmed the state's commitment to sustainable growth, energy security, and innovation in the power sector. With robust policies, enhanced infrastructure, and a proactive governance approach, Bihar is emerging as a dynamic hub for power-sector investments and technological advancements.

CII International Energy Conference 2025 : Bihar's Power Sector Takes Centre Stage

The 6th International Energy Conference & Exhibition 2025, organised by the Confederation of Indian Industry (CII) at Hotel Taj Palace, New Delhi, featured Bihar as one of the key focus states. Over two days of discussions, exhibitions and high-level dialogues, Bihar showcased how a state once known for power shortages is now emerging as one of India's fastest-improving power ecosystems—ready for investment, growth, and large-scale clean energy deployment.

The Bihar Energy Department led a dedicated one-hour state session titled “Empowering Bihar: Energy for Growth & Sustainability,” which drew strong interest from industry leaders, investors, technology firms, renewable developers, financial institutions, and policymakers.

Throughout the event, Bihar's energy pavilion - set up by the Energy Department - received significant footfall, with multiple investors expressing interest in exploring project opportunities in renewables, BESS, transmission and industrial load centres.

Bihar's Power Journey : Secretary Energy Sets the Context

Shri Manoj Kumar Singh, IAS, Energy Secretary & CMD, BSPHCL, delivered the keynote presentation and set the tone for the session.

He described how Bihar has scripted one of India's fastest energy turnarounds since the 2012 unbundling, powered by strong political resolve and sustained reforms.

He highlighted :

- Peak demand met: <700 MW (2005) → 8,752 MW (2025)
- Consumer base: 17 lakh → 2.20 crore
- AT&C losses: ~60% → ~15.5%
- Universal household electrification
- Major expansion in transmission capacity and distribution reliability

Shri Singh emphasised that these outcomes have been enabled by large-scale investments in smart metering, feeder strengthening, sub-transmission, digitalisation, and a clear long-term Resource Adequacy strategy.

He also highlighted Bihar's newest policy enablers—the Renewable Energy Policy 2025, the Pumped Storage Promotion Policy 2025, and the Industrial Investment Promotion Package 2025—which together create a de-risked, investor-friendly environment through long-tenor waivers, banking provisions, land facilitation and payment security mechanisms. Urging investors to “see Bihar with your own eyes, not through old perceptions,” he underlined the State's transparent systems, timely payments and unwavering commitment to partnership-driven growth in the energy sector.

High-Level Panel : Leaders From India's Energy & Investment Ecosystem

The panel on “Empowering Bihar: Energy for Growth and Sustainability” brought together major national and international stakeholders:

- Shri Ghanshyam Prasad, Chairperson, Central Electricity Authority
- Shri Jitendra Srivastava, IAS, CMD, REC Ltd.
- Shri Kundan Kumar, IAS, MD BIADA & Investment Commissioner
- Shri Deepak Amitabh, President, Adani Group
- Shri Anil Rawal, MD & CEO, Intellismart Infrastructure
- Shri Deepak Kumar Nayak, VP & Head (Renewables), L&T

The discussion highlighted Bihar's major improvements in energy access, distribution efficiency, grid upgrades, and stable payment mechanisms—key elements that investors look for.

Shri Ghanshyam Prasad appreciated Bihar's consistent improvements in grid reliability, tariff discipline and loss reduction, noting that the State's planning and payment reforms have aligned it well with national standards and improved its ability to integrate future renewable capacity.

One of the most impactful reflections came from Shri Jitendra Srivastava, CMD REC Ltd., who spoke not only as a financier but as someone who has spent over twenty-five years serving Bihar—as District Magistrate in four districts and later as Managing Director of the Generation Company and both DISCOMs. He shared his personal account of watching Bihar's electricity landscape transform from <700 MW to more than 8,700 MW of demand met, and from 2 million to over 21 million consumers, while witnessing AT&C losses fall from nearly 60 percent to around 15 percent. He praised the State's rapid adoption of over 77 lakh smart prepaid meters, digital substations, GIS grids and a well-defined Resource Adequacy Plan till 2034.

He also pointed out how Bihar's RE Policy 2025, Pumped Storage Policy 2025 and Industrial Investment Package 2025 collectively lower the cost of capital and improve project viability. Speaking as CMD REC, he highlighted Bihar's timely, disciplined and outcome-oriented utilisation of RDSS funds—an indicator of strong governance and reliability for investors—and reaffirmed REC-PFC's commitment to supporting the State in scaling storage, pumped storage and digital distribution systems.

Shri Kundan Kumar, IAS, MD BIADA & Investment Commissioner, presented Bihar's wider industrial journey, emphasising the State's strategic location, multimodal connectivity and access to a 400-million-people regional market. He outlined BIADA's plug-and-play industrial parks, ready-to-allot land bank and an evolving MSME ecosystem supported by skilled manpower. Through the BIIPP 2025 incentives—capital subsidy, SGST reimbursement, interest subvention and fast single-window clearances—he underscored that Bihar today offers policy stability, reliable power, quick approvals and a highly supportive government ready to facilitate investment across sectors.

Industry leaders representing Adani Group, Intellismart and L&T Renewables expressed strong appreciation for Bihar's transparent working environment, predictable payment mechanisms and quick decision-making. They noted that the State's progress in smart metering, digitalisation, renewable adoption and grid strengthening has made it one of the most reliable destinations for private-sector participation. The ease of coordination with the Energy Department, the professionalism of utilities and the speed with which issues are resolved were highlighted as major advantages for investors.

The Vote of Thanks was delivered by Shri Rahul Kumar, IAS, Managing Director of NBPDC, who

acknowledged the insights shared by the panel and expressed gratitude to CII for providing a national platform to showcase Bihar's achievements. He reiterated the State Government's commitment to reliable, affordable and consumer-centric power supply, and emphasised how the Energy Department and DISCOMs are working as a unified team to support investors, strengthen operational performance and accelerate project execution. His remarks reinforced the message that Bihar today is not just improving—it is consistently delivering results.

Another Key Session: PPAs vs Trading – The DISCOM Dilemma

Later in the conference, a special technical session on "Power Procurement through PPAs or Trading – A Discom Dilemma" featured active participation from Shri Manoj Kumar Singh.

The discussion covered:

- Strengthening financial sustainability of DISCOMs
- Evolving procurement strategies
- Balancing long-term PPAs with short-term trading
- Ensuring least-cost power procurement

Experts appreciated Bihar's transparent procurement practices and improving counterparty credibility.

Strong Industry Participation

The event saw participation from a wide range of companies including renewable developers, BESS providers, transmission EPCs, financial institutions, OEMs and industrial groups. Major players such as Adani Group, L&T, Intellismart, Tata Power, Avaada and Reliance Power engaged deeply with Bihar's delegation, showing strong confidence in the State's emerging potential.

Conclusion : Bihar Rising

Overall, the CII event reinforced a single, clear message: Bihar's energy sector has undergone a decisive shift—from a follower to a frontrunner in execution, reform depth and investment readiness. With profitable DISCOMs, falling losses, robust policies, rapid digitalisation and multi-GW renewable plans, Bihar today projects confidence, stability and commitment—three qualities investors value the most.

As the State accelerates toward its next phase of growth, the energy sector stands firmly at the heart of this transformation, powering Bihar's rise and contributing meaningfully to the vision of a Viksit Bharat.

An interactive session with **Sri Pratyaya Amrit, IAS** Chief Secretary, Bihar

The Chief Secretary of Bihar, Shri Pratyaya Amrit, IAS visited Bihar State Power Holding Company Ltd. (BSPHCL), for a special interactive session organized for all employees of BSPHCL and its subsidiary companies. The event marked a moment of pride and inspiration for the entire power sector fraternity of the state.

During the ceremony, the Chief Secretary expressed his deep appreciation for the dedication and hard work of all “*Urja Parivar*” employees. He emphasized that the workforce of BSPHCL and its subsidiaries is not just an organization but a family that has contributed tirelessly to the development of the power sector in Bihar. He acknowledged the

collective efforts made during challenging periods and applauded the commitment of employees in ensuring reliable and efficient electricity services across the state.

Reflecting on his tenure as CMD of BSPHCL, he shared several important milestones and initiatives. He highlighted the significant recruitment of IT engineers during his leadership, noting that their contribution has strengthened the technological backbone of the organization. He expressed satisfaction that these engineers are now performing exceptionally well and are playing a crucial role in improving operational efficiency.

He also stated that Bihar has achieved remarkable progress in the power sector, earning appreciation at National level. He said that the coming times will be challenging, and to meet public expectations, continuous efforts are required in adopting new technologies and upgrading human resources. He stressed the importance of embracing new and advanced technologies in the power sector. He encouraged employees to remain open to innovation and modernization, as these are essential for delivering high-quality services and meeting the growing expectations of consumers. He reiterated that technological upgradation—whether in distribution, transmission, billing, or system management—is key to the future vision of Bihar’s power infrastructure.

His address was motivational, instilling confidence in all employees and reaffirming the state government's commitment to strengthening the power sector. The visit concluded with expressions of gratitude from the employees, who felt encouraged and inspired by his guidance and vision.

The Chief Secretary emphasized that the consumer is paramount. Improved power supply has brought significant changes in people’s lifestyles and work patterns, and ensuring consumer satisfaction is a collective responsibility. He highlighted that the Bihar government is providing 125 units of electricity free of cost to consumers, and the state has emerged as a model for smart prepaid meter installation.

He recalled that on 15 August 2012, Hon’ble Chief Minister Shri Nitish Kumar had announced the resolve to reform the power sector from Gandhi Maidan. Following this, the state witnessed historic progress in electricity. In 2016, the goal of bringing electricity to every household was set, and it was achieved by October 2018. He added that Energy Minister Shri Bijendra Prasad Yadav played a pivotal role in guiding these reforms. “Today, people in Bihar no longer ask how long electricity is available, but rather how long the power cut lasts,” he said, crediting the dedication of all electricity workers for this achievement.

The Chief Secretary said that Bihar’s credibility as a brand has increased, and efforts must continue to strengthen it further. Consumer grievances must be resolved promptly, even if complaints come late at night. He instructed that no officer or employee should misbehave with consumers, as each one represents the organization.

During the session, Energy Secretary and CMD of BSPHCL Shri Manoj Kumar Singh said that Chief Secretary Shri Pratyaya Amrit has played a crucial role in transforming Bihar’s power sector. He has given new direction to team spirit, work culture, and corporate practices along with infrastructure development.

Managing Directors of SBPDCL and NBPDC, Shri Mahendra Kumar and Shri Rahul Kumar, were also present on the occasion. Officers and employees from various departments of Vidyut Bhavan participated, while a large number joined through video conferencing.

Proud Moment for Bihar DISCOMs : Rewards for Innovation

SBPDCL & NBPDCCL Win Top Honors in Multiple Categories

Bihar's power sector achieved a remarkable milestone at the 19th India Energy Summit & 13th Innovation with Impact Awards for Discoms, organized by the Indian Chamber of Commerce (ICC) on 11th & 12th November 2025. Both state distribution companies South Bihar Power Distribution Company Ltd. (SBPDCL) and North Bihar Power Distribution Company Ltd. (NBPDCCL) secured top positions in highly competitive national categories, reaffirming Bihar's growing leadership in power reforms and innovation.

SBPDCL's Achievements

SBPDCL earned multiple awards across key performance and innovation categories, reflecting its consistent effort toward modernizing distribution, improving service delivery, and adopting advanced technologies.

The company was recognized for:

- 1st Rank in Technology Adoption.
- 1st Rank in Innovation with Impact – Challenged State.
- 2nd Rank in Efficient Operations.

These awards recognize SBPDCL's sustained efforts to enhance operational efficiency, embrace innovative technologies, and deliver improved services to its consumers. The prestigious awards were received by senior officials of SBPDCL -- Sri Vijay Kumar, Director Operation, SBPDCL, Sri Purushottam Prasad, Chief Engineer (Commercial), and Sri Manish Kumar, Electrical Superintending Engineer (Energy Accounting).

NBPDCCL's Award-winning Performance

NBPDCCL also performed exceptionally well at the national platform, securing recognition for its continuous improvements in service quality, system reliability, and consumer-centric innovation.

The utility proudly secured:

- 2nd Rank in Technology Adoption.
- 2nd Rank in Innovation with Impact.

These achievements signify NBPDCCL's commitment to enhancing power supply reliability and integrating modern technological solutions to serve millions of consumers in North Bihar. Representing NBPDCCL, Sri Sujeet Kumar, Electrical Superintending Engineer (Metering), accepted the awards.

Bihar Shines on the National Stage

With both DISCOMs winning multiple awards, Bihar showcased its progressive outlook in the electricity distribution sector, emphasizing:

- Innovation-driven reform.
- Technology-led service improvement.
- Operational efficiency.
- Commitment to reliable and affordable power.

The dual success of SBPDCL and NBPDCCL at the ICC Awards 2025 reinforces the state's growing national significance in the energy sector and highlights the dedication of its workforce, leadership, and continuous governance support.

हिन्दी दिवस 2025

हिन्दी के प्रति कृतज्ञ ऊर्जा परिवार

बिहार स्टेट पावर (होल्डिंग) कम्पनी लिमिटेड एवं उसकी अनुषंगी कंपनियों के द्वारा पटना के विद्युत भवन में हिन्दी दिवस 2025 का आयोजन किया गया। इस उपलक्ष्य में आशुवाक एवं कविता पाठ प्रतियोगिता के प्रतिभागी विजेताओं को पुरस्कृत करते हुए अपने उद्बोधन में आदरणीय अध्यक्ष-सह- प्रबंध निदेशक श्री मनोज कुमार सिंह ने ऐसे आयोजनों को और करने की बात कहकर, मातृभाषा हिन्दी के प्रति आदर प्रकट किया। इस अवसर पर प्रबंध निदेशक श्री महेंद्र कुमार एवं श्री राहुल कुमार तथा अन्य पदाधिकारी एवं कर्मचारी गण उपस्थित थे।

जी रहा था मैं

घर से दफ्तर, दफ्तर से घर,
कुछ इस तरह कट रहा था अपना सफर।
कभी चाय पर चटपटी बातें, कभी पार्टी में समोसा,
कभी गली के गॉसिप, कभी हल्दीराम का डोसा।
चाय के साथ राजनीतिक चर्चा,
और शनिवार के सिनेमा पर खर्चा।
कर रहा था मैं,
बस कुछ इस तरह जी रहा था मैं।

रोज शाम का कार्यक्रम थोड़ा विचित्र था,
एक लत जो मेरा अभिन्न मित्र था।
नशे का आदी मैं, नशा मुझे प्यारा था,
शराबबंदी के बाद बस एक सिगरेट का सहारा था।
गली के कोने की पानवाली दुकान पर,
बाइक पर बैठा, थोड़ा स्टाइल मारकर,
बेफिक्री से सिगरेट का कश खींच रहा था मैं,
क्या मस्त जी रहा था मैं।

अब इसे शौक कहें या कहें लत,
कौन जाने क्या सही और क्या गलत।
शराबबंदी के बाद बड़ी मुश्किल से शराब छोड़ा था,
तब जाकर धूम्रपान से नाता जोड़ा था।
नशे से मेरा बरसों का रिश्ता था,
हाँ, उस चक्कर में फेफड़ा पिसता था।
पर ये कोई कच्ची उम्र का इश्क न था,
मैं और धुआँ-क्या मस्त जोड़ी थी।
बस इसी धुएँ की सुई से जीवन और आनंद की डोर सी रहा था मैं,
जी रहा था मैं।

रोज की तरह उस दिन मैं
धुएँ से खेल रहा था।
इधर देखो-दुनिया कोरोना की मार
झेल रहा था।
खैर, धूम्रपान के बाद मैं लौटा घर,
कुछ देर में आई ये मनहूस खबर।
कोरोना के कारण देश में लॉकडाउन हुआ,
दुकान, दफ्तर, होटल, सिनेमा सब बंद हुआ।
कौन जाने ईश्वर की क्या रजामंदी थी,
कि घर से निकलने तक की पाबंदी थी।
ऐसी आघातपूर्ण समाचार सुनकर भी
मन को तसल्ली दे रहा था मैं,
जी रहा था मैं।

तालाबंदी का वो पहला दिन था,
पर नशे बिना जीना मुश्किल था।
शाम ढलते ही बेचैनी बढ़ने लगी,
नशे की अत्यावश्यक जरूरत पड़ने लगी।
कोरोना न होता तो ये हालत न मेरी होती,
काश, काश सिगरेट की भी होम-डिलिवरी होती।
दफ्तर से सूचना मिली कि अब घर से काम करना है,
पर ये बताओ नशेड़ियों को कैसे धूम्रपान करना है।

और सिगरेट नहीं तो शराब ही पिला दो,
बढ़िया ब्रांडेड नहीं तो खराब ही पिला दो।
भावुक हो उठा याद करके कि एक समय,
बेफिक्री से धुआँ पी रहा था मैं।
अब बस किसी तरह जी रहा था मैं,
जी रहा था मैं।

दिलों-दिमाग का संतुलन खोने लगा,
अब तो घरवालों को भी शक होने लगा।
पापा को लगा कि कोई मानसिक बीमारी है,
माँ ने सोचा शायद भूत-प्रेत की सवारी है।
धीरे-धीरे मेरी याददाश्त खो रही थी।
और इस बात पर उनमें बहस हो रही थी।
कि डॉक्टर के पास दिखाएँ या झाड़ू-फूँक कराएँ,
हम यहाँ परेशान कि कहाँ फूँक कर आएँ।
बड़ी ही शिद्दत से नशे को याद कर रहा था मैं
अब धीरे धीरे मर रहा था मैं

एक दिन मेज़ पर एक द्रव्य की बोतल रखा था,
ध्यान से देखा तो उस पर 90% एल्कोहल लिखा था।
नशे के वियोग में मैं बेबस, चारा नहीं था दूजा,
बड़े-बड़े अक्षरों में लिखा सेनीटाइजर नहीं सूझा।
बिन कुछ जाने-बूझे उसको पी लिया समझकर शराब,
होश आया अस्पताल में, सेहत ऐसी हुई खराब।
डॉक्टर ने समझाया - नशे से बना लो दूरी,
सेहतमंद जीवन के लिए यह बात है बहुत जरूरी।
साथ ही अस्पताल का थमाया बिल भारी,
मैंने सोचा नशा छोड़ने में ही है समझदारी
आखिर क्यों जानलेवा धुएँ से फेफड़ा भर रहा था मैं?
अब धीरे-धीरे मर रहा था मैं।

अब उँगलियों में सिगरेट के साथ नहीं दिखता हूँ,
बल्कि कलम रख कविता लिखता हूँ।
माना, नशे की लत में एक वक्त डूबा था मैं,
परंतु अब नशामुक्त जीवन जी रहा हूँ मैं।

द्वितीय विजेता

“चहकता बचपन”

हाँ, बचपन का मंजर हमने देखा है!

हँसते-गाते गुजरे हैं वो प्यारे दिन,
रहते थे अपने मगन में सारा दिन।

बड़े पेड़ पे सूखी डाली देखा है,
हाँ, बचपन का मंजर हमने देखा है।

गली में दौड़े धूल भरे वो नंगे पाँव,
खिलखिलाते चेहरे पे मासूम लगाव,
हँसती आँखों में समन्दर देखा है,
हाँ, बचपन का मंजर हमने देखा है।

खेल-खेल में ढल जाती थी हर एक शाम,
रात थी लाती चाँद-सितारों का पैगाम,
सुबह सुनहरी धूप का अम्बर देखा है,
हाँ, बचपन का मंजर हमने देखा है।

ना फिक्र थी कल की कोई, ना था गम का पता,
बड़े मजे से वो पल बेफिक्री में बिता,
बस एक खुशी का ख़ाब यहाँ पर देखा है,
हाँ, बचपन का मंजर हमने देखा है।

बीता बचपन आया जवानी का मौसम,
टूट पड़ा हमपे जिम्मेदारी का गम,
नई खाट पर, पुराना बिस्तर देखा है,
हाँ, बचपन का मंजर हमने देखा है।

तन, मन और पर्यावरण

तन निर्मल और मन पावन था; जब पर्यावरण में वन-उपवन था।
सौ बरस भी आयु जन थी; कहीं नहीं थी पीड़ा मन की।
स्वच्छ पवन और नीला गगन था; निर्मल जल भूतल पावन था।
न भय कोई पराबैंगनी किरण की; क्योंकि चिंता नहीं थी ओजोन क्षरण की।
गर्मी वर्षा जाड़ा से मन प्रसन्न था; क्योंकि ससमय होता ऋतु परिवर्तन था।
खेतों में थी हरियाली किसान की; अन्न से भरी थी थाली इंसान की।
अवसाद से मुक्त हर मन था; क्योंकि स्मार्ट फोन में कैद न कोई जन था।
मानसिक क्षमता उत्तम थी जन की; और लोगों में नहीं थी दूरी मन की॥

अब तन-मन से रोगग्रस्त हर जन है; क्योंकि हर पल कर रहा पर्यावरण का वो क्षरण है।
कर्क रोग, रक्तचाप से जूझ रहा जन-जीवन है; तनाव और आशक्ति से पीड़ित अब हर मन है।
शवास रोग से पीड़ित तन और दिखता धुंध गगन है; जल भी दूषित, मृदा भी दूषित, कोई न अब पावन है।
पराबैंगनी किरण से जूझ रहा, अब हर मानस तन है; ओजोन परत को निगल रहा क्लोरोफ्लोरोकार्बन है।
न बूँदों की छनछन, न जाड़े की सिहरन है; भीषण गर्मी का कारण ये जलवायु परिवर्तन है।
अति ताप, अनियमित ऋतु और मृदा का हो रहा क्षरण है; जिसके कारण घट रहा, अब कृषि उत्पादन है।
स्क्रीन टाइम पर लोगों का, न रहा कोई नियंत्रण है; इंटरनेट के अति प्रयोग से विकृत मानव मन है।
मेल-जोल और वार्तालाप का, घट रहा अब चलन है; स्क्रीन में कैद होकर मानव कर रहा अपना पतन है॥

छोड़ मूर्खता आओ हम-सब अब तो सुधर जाएँ; वृक्षारोपण करके अपना सुंदर पर्यावरण बनाएँ।
जीवाश्म ईंधन का अल्प प्रयोग कर, नवीकरणीय ऊर्जा अपनाएँ; कूड़ा-कचरा, मलजल के उपचार से शुद्ध जलवायु धरा पर लाएँ।
पैदल चल कर, साईकल प्रयोग कर, तन को अब हम थकाएँ; विद्युत परिवहन को बढ़वा देकर संतुलन फिर से लाएँ।
ए0सी0 का अल्पप्रयोग कर, पंखे को ही अपनाएँ; छोटे-छोटे प्रयासों से हम ओजोन स्तर को बढ़ाएँ।
रासायनिक कीटनाशक को त्यागकर, मृदा में उर्वरता लाएँ; जैविक खेती पद्धति अपनाकर उत्पादन को हम बढ़ाएँ।
स्वच्छ भूमि और जल, पवन से, शुद्ध पर्यावरण पाएँ; उत्तम तन-मन का यही मूल है, सभी समझ ये जाएँ।
यूट्यूब, इंस्टा की लत त्यागकर, घर के बाहर जाएँ; मेल-जोल और वार्तालाप कर अवसाद मुक्त मन पाएँ।
प्रातःकाल उठकर हम-सब प्रकृति से जुड़ जाएँ; कसरत, योगा और ध्यान से तन-मन को निरोग बनाएँ॥

हिंदी और हम

प्राचीन युग के दौर से नए युग के विस्तार तक,
आर्यभट्ट के शून्य से इस पूरे संसार तक,
भारत के संविधान से हमारे बोलचाल तक,
स्वतंत्रता के संग्राम से आजादी के आयाम तक,
हिंदी ने है जोड़े रखा हमारी संस्कृति को संजोये रखा।

हिंदी है दिल की भाषा भावों की अभिव्यक्ति,
भारत की आत्मा में बसी सभ्यता की प्रतीक शक्ति,
अक्षरों में गूँजते सुर कबीर की वाणी सी,
तुलसी के दोहे गाते प्रेम की अमिट कहानी सी।

शब्दों में शक्ति है भावनाओं का संगम,
हिंदी बोले तो लगता है अपनों का आलिंगन।
हिंदी की हो गूँज सर्वत्र, यही हमारी अभिलाषा,
मातृसम्मान, मृदुल, प्रेममय, हिंदी की है परिभाषा।

एक हमारी मात्र भाषा, एक ने हमें अपनाया है,
एक एक कर जब हम मिले तब यह ऊर्जा परिवार कहलाया है।

इंसान है अवतार नहीं, पर मानते कभी हार नहीं,
बिना संघर्ष समर्पण के होती जयजयकार नहीं।

कार्यालय के पत्राचार में, हर एक संवाद में, हम हिंदी को ही पाते हैं,
कठिन तथ्यों को भी हिंदी में सरल बनाते हैं, बड़ी उपलब्धियों को हासिल करते जाते हैं,
हम विकास का ध्वज लहराते हैं।

हमसब ने तपकर सबका भविष्य निखारा है,
हमें जन्म से भी ज्यादा हमारा ऊर्जा परिवार प्यारा है।

हम रहे सदैव प्रगतिशील, हो नवीकरणीय ऊर्जा का विस्तार,
हमारा आधार, ऊर्जस्वित बिहार।

गौरव “हिन्दी” का

आओ गाये “हिन्दी” की गौरव गाथा,
जो है अपनी राष्ट्र की भाषा।

हिन्दी है हमारी आन-बान,
हिन्दी से है देश की पहचान।

मिट्टी की खुशबु लाती है हिन्दी,
सबको अपना बनाती है हिन्दी।

महक रही है हर भाषा में,
झलक रही है हर अभिलाषा में।

कवियों के कविता में है हिन्दी,
गायकों के गायकी में है हिन्दी।

कबीर, तुलसी, सूर के बोल,
हिन्दी ने ही दिये अनमोल।

प्रकृति के आँचल में हिन्दी,
नदियों के निर्झर में है हिन्दी।

प्रकृति के हर साख पर बैठी,
‘मधुर गीत’ सुनाती है हिन्दी।

जोड़े दिल से दिल का रिश्ता,
हर सुख-दुख को गले लगाती है हिन्दी।

विद्या की ये ज्योति प्रखर,
साहित्य का है इसमें ‘सागर’।

आओ मिलकर वचन ये लें,
हिन्दी का ‘मान’ कभी न खोयें।

विश्व मंच पर गूँजे स्वर,
हिन्दी हो हर जन-मन का स्वर।

आओ करें नमन् हिन्दी को,
राष्ट्र भाषा को करें सलाम।

जय हिन्दी, जय भारती।

वो हैं माँ

मौत की गोद में जाकर,
अपनी कोख से जिंदगी की किलकारियाँ गुँजा दे,
वो हैं माँ।

दो-दो कुल की मर्यादा निभाते हुए,
एक नई पीढ़ी की संरचना करें,
वो हैं माँ।

सबके लिए रोटी पकाके, रोटी कमाने भी निकले,
वो हैं माँ।

आँखों के आँसू पीके, सबको अपने खून से सीचे,
वो हैं माँ।

जीवन के सारे दुख-दर्द, पीड़ा भूलाकर,
सबको खुशियाँ बाँटे,
वो हैं माँ।

मान और अधिकार न मिलने पर भी,
सभी पर अपनी ममता और प्यार लुटाये,
वो हैं माँ।

जिसे एक दो या ना भी दो,
उसे भी दुगुना-तिगुना करके लौटाये,
वो हैं माँ।

जीवन के अंतिम साँस तक,
बच्चों की भर-भर की बलाएँ ले, दुआएँ दे,
वो हैं माँ, वो हैं मेरी माँ, सबकी प्यारी माँ,
सबकी न्यायी माँ, सबकी भोली माँ,
सबकी सुंदर माँ।

जय गणतंत्र

खड़ा हिमालय स्वर्ण मुकुट सा, कंठहार गंगाजल।
सिंधु चरण पखारे इसका, कमरबंद विन्ध्याचल।

हरे-भरे हैं कृषक बृंद जन, खेतों में हरियाली।
नदियाँ लहराती हैं निर्झर, इठलाती बलखाती।
सीमा पर कड़ा है पहरा, कमर कसे हैं दलबल।
सिंधु चरण पखारे इसका, कमरबंद विन्ध्याचल।

सत्य अहिंसा पूँजी इसकी, चारों वेद मानवता।
संविधान भी धर्मग्रंथ है, रामचरित मानस सा।
हर मन का है भाव समर्पण, निश्चल निर्झर उज्ज्वल।
सिंधु चरण पखारे इसका, कमरबंद विन्ध्याचल।

जन-जन जनमत का सम्मान, जीवन शास्त्र गाथा।
जय जय जय हे भारत, जय हो जय गणतंत्र विधाता।
सदा गगन को चूमे भारत, स्नेहिल सुरभित प्रतिपल।
सिंधु चरण पखारे इसका, कमरबंद विन्ध्याचल।

अभियंता

कुशल तकनीक व दक्षता से परिपूर्ण,
जन जीवन जो चलाता है,
नीरस जीवन को जो रोचक बनाये,
अभियंता वो कहलाता है।
अभियंता वो कहलाता है।

जहाँ चाँद पर था जाना मुश्किल,
आज दुनिया को मुट्ठी में पाता है,
तकनीकी के नये-नये आयाम से,
सुख सुविधा जो लाता है,
वो अभियंता कहलाता है।
वो अभियंता कहलाता है।

उसे नहीं अभिमान किसी का,
जो हर रूप रंग को पाता है,
मजदूर मिस्त्री या अधिकारी,
सबसे घुल-मिल जाता है,
वो अभियंता कहलाता है।

ऊँची ईमारत निरंतर बिजली,
5जी औ एआई जो लाता है,
जीवन के अंधेरे को,
पल में दूर मिटाता है,
वो अभियंता कहलाता है।
वो अभियंता कहलाता है।

सब दीप्तिमान हो जायेगा

स्याह निशा का अंत भी है, जब दिवा प्रकाश आ जायेगा।
हैं जो छाया घोर अँधेरा, हर सब रौशन हो जायेगा।
धीरज की यह परीक्षा, तेरा सब्र ही शस्त्र बन जायेगा।

तम घोर सही पर अमिट नहीं, सब दीप्तिमान हो जायेगा।
हिम्मत बस अपनी बाँधे रखना, फिर नया सवेरा आएगा।

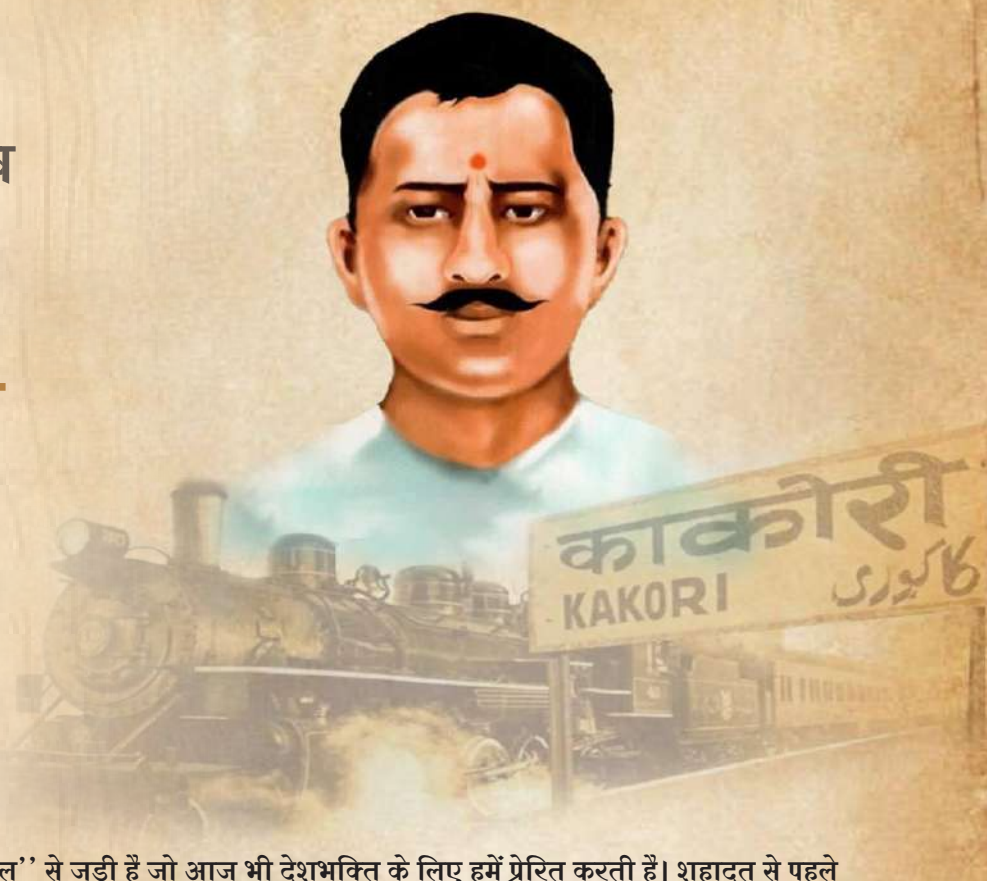

तनिक प्रशंसा हर्षित न हो, तनिक हो निंदा चिंतित न हो।
श्रम और पौरुष के सहारे, साधे सब सध जायेगा।
कर्म न हो जाए सफल, कभी प्रयास हो जाये विफल।
हो अभ्यास, सतत, अंततः लक्ष्य सिद्ध हो जायेगा।

तम घोर सही पर अमिट नहीं, सब दीप्तिमान हो जायेगा।
हिम्मत बस अपनी बाँधे रखना, फिर नया सवेरा आएगा।

स्वतंत्रता दिवस विशेष

याद है शहादत की वो कहानी

यह संक्षिप्त कहानी क्रांतिकारी रामप्रसाद “बिस्मिल” से जुड़ी है जो आज भी देशभक्ति के लिए हमें प्रेरित करती हैं। शहादत से पहले वीरमाता मुलमती उनसे मिलने पहुँची, तो उनकी डबडबाई आँखें देखकर भी कमजोर नहीं पड़ी, अपने कलेजे पर पत्थर रखकर उलाहना देती हुई बोली, अरे मैं तो समझती थी कि मेरा बेटा बहुत बहादुर है, और अंग्रेज सरकार उसके नाम से थर-थर काँपती है, मुझे पता नहीं था कि मौत से इतना डरता है। उन्होंने फिर उनसे पूछा, रो-रोकर ही सूती चढ़ता था, तो तुने इस पर कदम ही क्यों रखा? ‘बिस्मिल’ ने बिना पल गँवाये अपनी आँखें पोंछ डाली और कहा, गलत मत समझ माँ, मेरी आँखें मौत के खौफ से नहीं, यह सोचकर कर डबडबा आयी थीं कि अब उन्हें तेरे जैसी बहादुर माँ को देखना मयस्सर नहीं होगा, कुछ ही दिनों पहले उन्होंने इस माँ को पत्र लिखा था। जीवन सफल करूँ, किन्तु यह इच्छा पुरी होती नजर नहीं आती, शायद तुम्हें जल्दी ही मेरी फाँसी की सूचना मिले। माँ मुझे विश्वास है, कि तुम यह समझकर धैर्य रख लोगी कि तुम्हारा पुत्र भारत माता की सेवा की भेंट चढ़ गया। उसने तुम्हारी कोख को कलंकित नहीं किया।

ऐतिहासिक काकोरी ट्रेन से सरकारी खजाना लूटकांड एक्शन में पकड़ लिये जाने के कारण अशाफाक उल्लाह खान, राजेन्द्र नाथ लाहिड़ी और रौशन सिंह के साथ क्रांतिकारी राम प्रसाद ‘बिस्मिल’ को भी मौत की सजा हुई थी। शहादत से पहले मजिस्ट्रेट ने बिस्मिल से उनकी अंतिम इच्छा पूछी, तो उन्होंने कहा था, मैं ब्रिटिश राज का सर्वनाश चाहता हूँ। उन्होंने कवि के रूप में कुल ग्यारह किताबें लिखी थी।

अपनी शहादत से दो दिन पहले तक वे जेल के अन्दर अधिकारियों की नजर बचा कर अपनी आत्मकथा लिखते रहे और किशतों में बाहर भेजवा रहे थे। उन्होंने लिखा था कि मैं प्राण त्यागते समय निराश नहीं हूँ, न ही यह सोचता हूँ कि हमलोगों की बलिदान व्यर्थ है। उनकी कामना थी। ऐ मातृभूमि। तेरी जय हो, सदा विजय हो, प्रत्येक भक्त तेरा, सुख शांति-क्रांतिमय हो, दिल फिदा करते हैं, कुर्बान जिगर करते हैं। पास जो कुछ है वो माता को नजर करते हैं। राम प्रसाद ‘बिस्मिल’; की यह क्रांतिकारी पंक्ति आज भी हमें हौसला देती है।

“सरफरोशी की तमन्ना अब हमारे दिल में है, देखना है ज़ोर कितना बाजू-ए-कातिल में है”
